

I am writing to tell the FCC commissioners to not allow Big Cable to grow even bigger.

I oppose any further loosening of the national cable ownership limits. I also oppose the Comcast-Time Warner buy-out of Adelphia Communications.

I also have issues with the geographic monopolies held by the various companies that limits consumers' right to choose.

I have had enough of these monopolistic cable companies raising my rates while providing poor service. They have violated the public's trust and should not be allowed to get any bigger.

Thank you,

Ms Karen Johanson
